

## INVEST IN TOURISM INVEST IN MANITOBA'S FUTURE

As one of Manitoba's leading industries, tourism has unlimited potential for growth. This growth will lead to a broad range of economic, social and environmental benefits for our visitors, residents and communities. Investing in tourism will make Manitoba an even greater place to live and work.

### **Tourism is everybody's business.**

When we all work together, big things can be accomplished. Tourism depends on the support of the entire community to be successful. From local residents who volunteer their time, businesses that collaborate on development initiatives and governments that provide financial support – it takes every member of the region to stand together to promote their region's finest assets.

### **69% of all Manitoba tourist visits occur in the regions.**

It is a misconception that tourists only want to visit the "big city." Most of the tourism in this province happens right in our own back yards. Take pride in the tremendous beauty of your region and show it off!

### **The tourism sector creates employment opportunities. In Manitoba, tourism supports 23,500 jobs.**

Over \$552.3 million in annual tax revenues are contributed to the economy by tourism wages and direct spending. The industry supports 13,500 direct tourism jobs and 23,500 jobs in total. Tourism jobs also provide valuable opportunities for youth and first-time workers to enter the work force due to the availability of part-time and seasonal work. Beyond entry-level positions, tourism creates a wide range of options for all types of employment at all pay scales.

### **Tourism is a real leader in Manitoba's economy and it is critically important that we value this resource and foster its development for the continued prosperity of the province.**

\$301.1 million in total provincial and municipal taxes per year are attributed to tourism. With the rapid growth in this industry, it makes sense to continue to invest in tourism – for economic, social and environmental benefits for the entire region.

### **Tourism is the 4th fastest growing industry in the world.**

With growth like this, the possibilities are endless. People around the world are travelling more than ever, and continually seeking out authentic, meaningful experiences – just like the ones we pride ourselves on in Manitoba.

### **Tourism generates \$1.52 billion in spending every year. That is almost 3% of Manitoba's GDP.**

The revenue from this spending does not just benefit the tourism industry. The flow-through effect of travel means that a portion of every dollar spent by a visitor ends up in the hands of a secondary business and contributes to the development of the community.

### **Manitoba is a showcase of diverse cultural offerings and unique immersive experiences that cannot be found anywhere else in the world.**

Tourism is changing. The vast majority of travellers are no longer just looking for a sunny beach to lie on for a week. Visitors to Manitoba, in particular, are looking for once-in-a-lifetime experiences that will envelop them in culture, authenticity, exploration and adventure, and create memories that will stay with them forever.

GROWING STRONGER TOGETHER IN

# Northern MANITOBA

# THE POWER OF TOURISM – FUELLING MANITOBA’S ECONOMY

Visitation in the Northern region accounts for 4% of Manitoba’s visitors – or **436,000 visitors** who travel to and through the region. They spend **\$102 million**, or 7% of all tourism spending in Manitoba.

Tourism transactions in the Northern region are linked to the people in the industry who interact with visitors. These interactions result in the creation of **816 direct tourism jobs**, including entry-level jobs for those entering the workforce, management level and self employment opportunities across many sectors, including hospitality, arts and culture, and parks and recreation.

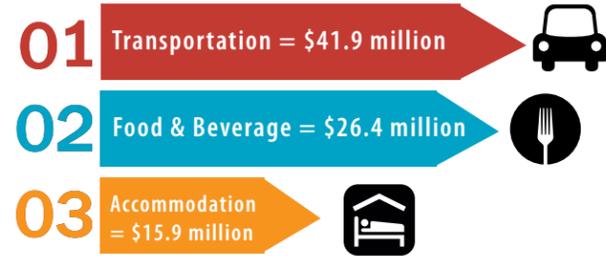

**436,000**  
visitors  
**\$102,000,000**  
spent

The biggest spenders in the Northern region are the **25,000 U.S. visitors**. They spend an average **\$1,547 per person** per visit, compared to \$118 per person per visit for Manitobans. In total, there are **259,000 overnight visitors**, which includes **191,000 from Manitoba**. There are also **177,000 day trip visitors** who come to the region. While the Northern region is a big draw for international tourists, many of the region’s visitors come from surrounding areas to visit the hub communities of Thompson, Flin Flon, and The Pas. The number of regional visitors is fairly consistent year round as they come for shopping, medical appointments, sporting events, festivals, etc.

## TOURISM VISITATION GENERATES TAX REVENUE

In the Northern region, tourism results in **\$21 million in direct tax revenues**, which are then reinvested in the region through municipal, provincial and federal projects.
