

BLADE Data Analytics Ecosystem

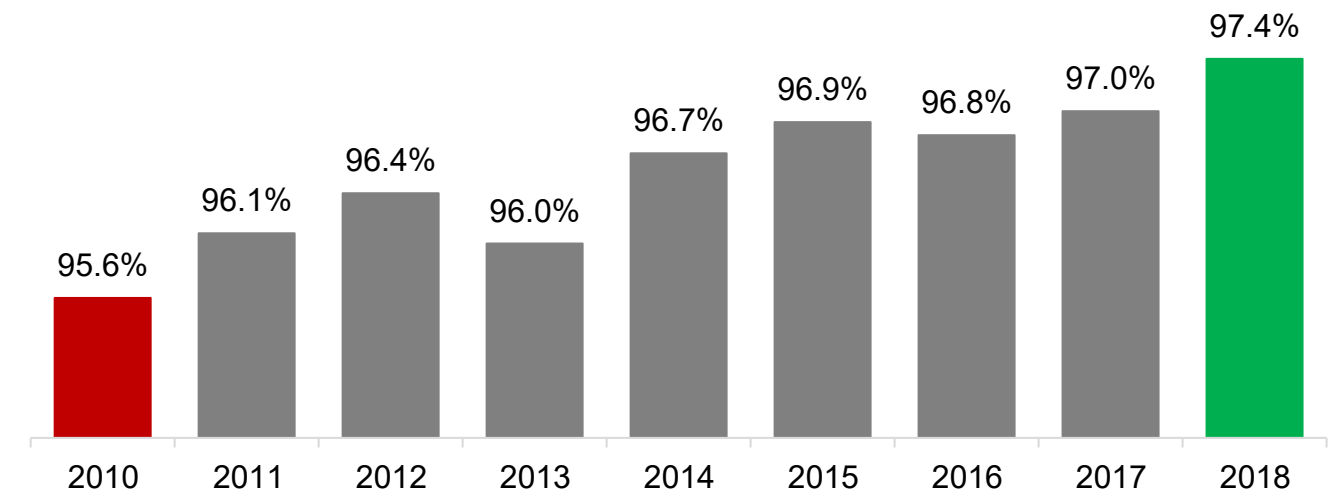

Delta's Journey to Leverage Data

Maintenance Cancellations

Maintenance D0
"On-Time Departure"

*Entire company focused on leading indicators to "canx cancellations"

➔ *Examples: D0 "On-time Departure," Virtual Kitting, Issue Effectiveness*

*Different focus on same data

➔ *MTBF vs Weibull Charts*

*Over 100 IT systems... but unity of effort

*Teaming with OEM to customize sensors on critical components
