ISTD NATIONAL DANCE EXAMINATIONS

FOLK DANCE STUDIES

AIMS and PURPOSE

- To impart practical skills in Folk Dance as it exists today in traditional format complemented by appropriate background knowledge and understanding.
- To develop an awareness and appreciation of traditional folk dance within the context of a wider dance world.
- To provide a starting point for inspiring further study into traditional folk dance.
- To enable the participant to enjoy a communal form of dance, regardless of age, gender, or ethnic background.

OBJECTIVES

- Ability to perform traditional folk dances with confidence.
- Ability to show an understanding of the background of folk dance from various countries.

ENTRY CONDITIONS AND GENERAL INFORMATION

The Folk Dance Studies may be taken at Schools, Folk Dance Clubs or Organisations, Dance Studios, Adult Classes or any similar group.

A teacher should not be present in the examination room.

Each candidate should wear a number on the front and back.

AGE LIMITS

The minimum age for entry is 5 years, and no maximum.

This is to ensure that the candidates are physically developed sufficiently to safely meet the demands of the syllabus.

TIME ALLOWANCES

Candidates should be entered in groups of 6 or 8.

The time allowed for one unit is 20 minutes

MUSICAL ACCOMPANIMENT

The musical accompaniment may be either live or pre-recorded, but the CD player should not be operated by the teacher, a relative of a candidate, or any other candidate in the session.

RECOMMENDED DRESS REQUIREMENTS

Either:

Leotard and skirt which may be circular or gathered; tights with hard or soft shoes as appropriate. Hair should be neat and worn off the face.

Or:

Short or long trousers, shirt or t-shirt, hard or soft shoes as appropriate.

EXAMINATION REQUIREMENTS AND PROCEDURE

In the first Unit each candidate receives their own personal booklet in which to record the countries danced and the projects made.

The first booklet covers twelve Units from Bronze to Gold Awards. When the twelve Units have been completed candidates may enter the Gold Star Levels, of which there are three. For these there is a second booklet containing eighteen Units covering Level 1 to Level 3. The relevant booklet should be handed to the assessor on the day of the examination.

After each Unit the dancer receives a certificate which should then be placed in the booklet on the special page provided. On completing the required number of Units each candidate will receive the relevant Award. There are three Units to complete Bronze, four units for Silver, five units for Gold and six units for each of the Gold Star Levels.

The teacher decides which country is to be presented and chooses the dances suitable for the ability of the candidates. There is no set syllabus. If desired, dances may be taken from any part of the Graded and Vocational Graded syllabus; or traditional dances from any other source can be used.

Each Unit represents one European country. However, if desired, one non- European country may be presented at each level.

The countries chosen for each Unit must be different. A country studied in Bronze should not be repeated for Silver, Gold or Gold Star.

The length of the test is 20 minutes. The total dancing time should be between 8 and 10 minutes. The number of dances chosen to form a Unit can vary depending on the length of each dance.

EXAMPLE OF A UNIT

GRADED EXAMINATIONS IN DANCE

RATIONALE

National Dance makes a distinctive contribution to the education of all students, through using movement, which is one of the fundamental modes of human expression. It offers a range of learning opportunities and enables participants to enjoy physical expression as well as develop intellectual sensibilities. As they work together in National Dance, candidates learn about co-operation and develop an understanding of the shaping of movement into artistic forms of expression.

Candidates develop the skill and understanding of National Dance, at the same time as building a sound technique, by developing the physical ability to communicate through movement. A clearly defined structure allows learning to take place in the context of safe dance practice. Each National Graded Examination allows candidates to progress to the next higher grade in the National Dance genre, ensuring that steps and skills learnt at lower levels prepare for more complex movements as the candidate progresses.

Following on from the Graded Examinations, candidates may wish to progress to the Vocational Graded Examinations as preparation for employment as a professional dancer or as preparation for dance teaching qualifications. The Graded Examinations in National Dance also allow for those participating solely for recreational purposes to produce quality work in a safe dance context.

AIMS

The aim of Graded Examinations is to provide an assessment scheme for dance, which gives the basis for the measurement of the individual candidate's progress and development, whether the candidate is pursuing dance as a leisure activity or as preparation for a professional career as a dance teacher or performer. There are six practical examination grades, numbered from 1 to 6, in order to indicate the increasing order of difficulty (6 represents the highest level).

OBJECTIVES

The objectives of the National Dance Graded examination syllabus are:

- teaching a range of folk dance styles.
- teaching a variety of steps, holds and floor patterns.
- encouraging spatial awareness in groups, pairs and as a solo dancer.
- developing awareness of the variety of music that accompanies the differing styles of folk dance.
- encouraging an interest in the wide range of European cultures through reading and study.

ENTRY CONDITIONS AND GENERAL INFORMATION

AGE LIMITS

There is a minimum age limit of 5 years for Primary and 6 years for Grade 1. There is no maximum age limit. This is to ensure that the candidates are physically developed sufficiently to safely meet the demands of the syllabus.

Children and adults should not be entered in the same set.

PRIOR LEARNING

The Graded Examinations in National Dance are intended to be taken consecutively and most candidates will wish to progress through them in sequence in order to develop and demonstrate the requisite skills. However, in cases where examinations are undertaken without success at the previous grade, the candidate needs to be at an appropriate level of physical and artistic development. Before a candidate enrolls in a class leading to a Graded Examination, teachers are under a particular duty to assess the ability of the candidate, particularly with regard to safe dance practice.

EQUITY, DIVERSITY AND INCLUSION

All dances may be danced equally by all candidates.

TIME ALLOWANCES

Candidates are normally entered in groups of four. If there are less than four candidates, partners should be supplied.

	1 candidate or 2 candidates	3 candidates	4 candidates
Primary	15 minutes	20 minutes	20 minutes
Grade 1	20 minutes	25 minutes	30 minutes
Grade 2	30 minutes	35 minutes	40 minutes

Grade 4	40 minutes	45 minutes	50 minutes
Grade 5	45 minutes	50 minutes	55 minutes
Grade 6	50 minutes	55 minutes	60 minutes

METHOD OF ASSESSMENT

Graded Examinations are assessed externally by a visiting examiner recruited and trained by the ISTD.

The examinations are divided into Sections and each Section is composed of several components which are separately assessed and aggregated to give the Section total.

Candidates must gain at least 25% of the marks attainable in each Section in order to pass the examination overall. In cases where 25% of the marks attainable does not come to a round figure, eg 12½, the pass mark for the Sections is lowered to the nearest round figure, in this example, 12.

The Section totals are aggregated and the overall mark is given out of 100. If all Sections are passed, then the overall result is indicated as follows:

Grade	Marks
Distinction	80-100 marks
Merit	60-79 marks
Pass	40-59 marks
Not Attained	00-39 marks

However, if the candidate is unsuccessful in one or more Sections, as explained above, the total mark given out of 100 will not correspond to the result indicators in the chart. In this circumstance, whatever the overall numerical mark may be, the result given will be **'Not Attained'**.

VOCATIONAL GRADED EXAMINATIONS IN DANCE

INTRODUCTION

RATIONALE

The Vocational Graded Examinations in National Dance, from Intermediate Foundation through to Advanced 2, develop the candidate's expertise in such a way as to provide the basis for either professional employment as a dancer or further training as a dance teacher.

Throughout the study of the syllabus, candidates are following a vocational path, requiring a high level of commitment and with an increasing emphasis on safe dance practice. Successful candidates at this level should show virtuosity in performance, a high standard of technique and a sound knowledge and understanding of the National Dance genre, including an understanding of reference and context. Candidates undertaking a study of the National Dance Vocational Graded syllabus should also typically display a sense of self-awareness and be self-motivated in terms of their personal development. As distinct from the Graded examinations, a greater degree of personal interpretation is required and the candidate is expected to show the potential to communicate effectively with an audience.

Candidates will need to show the qualities of professionalism, commitment and focus, with the ability to manage a greater workload than that required for the Graded examinations. This would typically result in a successful candidate spending significant additional time each week in lessons, in practising and in studying independently. The Vocational Graded examinations are concerned specifically with the mastery of technique and underpinning understanding, to a level sufficient to prepare candidates for further vocational training and match current expectations in the employment sector.

The Vocational Graded Examinations are regulated qualifications on the Regulated Qualifications Framework. Intermediate Foundation is located at Level 2; Intermediate is located at Level 3; and Advanced 1 and Advanced 2 are located at Level 4.

AIM

The aim of the ISTD Vocational Graded Examinations in National Dance is to provide an assessment scheme, which gives the basis for the measurement of the individual candidate's progress and development, in preparing to be a professional dance performer or teacher. There are four practical examinations graded to measure appropriate stages of development from a general standard of National Dance education to that of professional competence and readiness.

OBJECTIVES

The syllabus objectives for Vocational Graded Examinations in National Dance are to:

- gain knowledge of a range of folk dance styles with their accompanying theoretical background.
- know a variety of steps, holds and floor patterns.

METHOD OF ASSESSMENT

Vocational Graded Examinations are assessed externally by a visiting examiner recruited and trained by the ISTD. Assessment is carried out by means of a practical demonstration of the knowledge, understanding and skills required.

The examination is divided into Sections and each Section is composed of several components, which are separately assessed and aggregated to give the total out of 100.

Candidates will, however, be unsuccessful if:

1. 20% of the marks attainable or below are given for any one component
2. 40% of the marks attainable or below are given for any three components. This reflects the need to ensure competence across a wide range of components.

Results are indicated using the following attainment bands:

Distinction	80-100
Merit	65-79
Pass	50-64
Not Attained	00-49

CLASSIFICATION OF RESULTS

The principle of best fit is applied in deciding the appropriate classification for each candidate. It is not to be expected that a candidate in a particular category will necessarily demonstrate all of the characteristics listed in that category.

A candidate who achieves a '**Distinction**' classification (80-100 marks) is one who demonstrates the following attributes in performance:

- flair, vitality and skill.
- fully appropriate style.
- incisively-focused dancing.
- precision in the technique of the genre.
- consistent, highly developed musicality.
- confident and accurate responses to questions asked and/or tasks set.

A candidate who achieves a '**Merit**' classification (65-79 marks) is one who demonstrates the following attributes in performance:

- skill and proficiency.
- largely appropriate style.
- focused dancing.
- competence in the technique of the genre.
- evidence of developing musicality.
- relevant and appropriate responses to questions asked and/or tasks set.

A candidate who achieves a '**Pass**' classification (50-64 marks) is one who demonstrates the following attributes in performance:

- competence.
- basic ability to carry out the required movements.

- periodic moments of convincing focus.
- basic competence in most aspects of the technique of the genre.
- basic musicality.
- broadly relevant and appropriate response to questions asked and/or tasks set, but some prompting may be required.

A candidate who achieves an insufficient level of achievement 'N' classification (00-49 marks) is one who has not yet demonstrated the attributes required to gain at least a 'Pass' classification.

ASSESSMENT GUIDANCE

Candidates are assessed on their ability to demonstrate:

- Technical accuracy with correct placement
- Well co-ordinated movement with an awareness of the use of space
- An assured performance showing the differing qualities of movement and style
- Musicality and a highly developed sense of rhythm

REASONABLE ADJUSTMENTS

The ISTD policy and procedure for all reasonable adjustments for all qualifications is contained within the Equal Opportunities policy on the ISTD website. The Vocational Graded Examinations and Professional Qualifications are designed for those who are intending to pursue a career in dance, either as a performer or as a teacher. It is, therefore, very unlikely that a potential performer will require reasonable adjustments. However, a potential teacher must be able to demonstrate all movements precisely, in order to teach them effectively. As the 'Intermediate' examination is also now included as a unit within the Diploma in Dance Education, it is likely some candidates will apply for adjustments. This is because they are:

- Those candidates who are possibly already teaching and who do not have the stamina or muscular strength that is normally required at this level, and it would be deemed to be unsafe to require them to perform using the same degree of strength and stamina as a younger dancer
- Candidates who do not have sufficient physical facility to perform the movements at speed to the required standard, but who can nevertheless demonstrate them at a slower pace
- Candidates who, through their physical make up, would be causing injury to themselves, eg very stiff feet

The same criteria apply to candidates at higher levels. Such candidates must apply to the Customer Services and Quality Assurance Department, using the Application for Reasonable Adjustments form, at least three weeks prior to the examination entry, giving detailed reasons for the request. This will be processed giving the Faculty opportunity to refuse special conditions, recommend additional examination time, or give further detailed guidance. In principle, the examination must not be weighted to give an advantage to either the candidate with reasonable adjustments or the able bodied candidate. The demands on both must be equal.

Reasonable adjustments will be generally granted for certain specific sections of the examination, and candidates should indicate which of the sections might be affected. Candidates should attempt all movements and throughout, must dance to the best of their own physical ability. In the interests of safety and to facilitate accuracy of movement, some candidates may indicate their own tempo and may take extra pauses for breath as necessary. If required, questions may be asked, and these will be phrased in such a way as to clarify the knowledge of the mechanics of the movement. Questioning is not permitted for every section of the examination and would normally be used in a maximum of two performance sections.

The ISTD reserves the right to refuse entry to a particular candidate because of a reasonable belief that undertaking the examination will create a risk to the health or safety of the candidate. This includes any pregnant candidate taking a practical examination. The examiner also has the right to stop an examination if s/he considers that there is a risk to the health or safety of the candidate if they continue.

Pregnant candidates are requested to complete the Application for Reasonable Adjustments form so that the examiner can be made aware of their condition, regardless of any adjustment being requested, as the examiner needs to be informed, and additional time for breaks may also be applied for.

RESULTS AND CERTIFICATION

All ISTD examinations are single performances at one moment in time, with a detailed marking system awarded according to the assessment criteria and attainment descriptors given for each examination.

Examiners return the results and report sheets as soon as possible after the examination. The report sheets for each candidate are individually checked within the Quality Assurance department for administrative accuracy. Under normal circumstances the report sheets for UK examinations will be issued to the teacher within 21 working days of the examination. Any errors found are corrected by the examiner prior to further processing of the whole examination session, and may therefore extend these timings, although the department will make every effort to process these as rapidly as possible.

All results are entered by Sections, and checked for achieving the minimum pass levels, per Section and in total, and correct levels of attainment against the total mark achieved.

Results are then cleared for certificate issue, which is undertaken by the Customer Services and Quality Assurance department, and should be within 6 to 8 weeks of the examination. Copies of all report sheets and results are held on archive for reference as necessary.

RE-TAKES

Candidates who are not successful may not re-take the examination until 3 months after the original examination.
